Dear Mrs. Habbash :

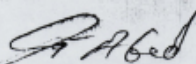

Following our discussions over the issue of cooperation between Birzeit Women's Charitable Society and your institutions, we at the Society have met and examined the most important issues. A resume of our current opinion can be summarized as follows :

1. In principle, we are more than happy to open up the possibilities for cooperation between your institution and ours.
2. In fact, cooperation is essential, in view of the potential problem of service duplication.
3. After having investigated the possibility of establishing a kindergarten in the village of Birzeit, we came to the conclusion that there is no need for one at the moment, in view of the presence of two other nursery schools in the village who are currently catering to the local needs.
4. After having reviewed local needs, it appears almost certain that the help that you can provide is most appreciated in the avenue of supporting the existing clinic of the Society. However, this would require a further examination of our current rural health programme.

In view of the above, we suggest that the Society would proceed to investigate the various options for cooperation in the avenue of health and respond with a detailed proposal within the next three months or so.

Meanwhile, on behalf of the Society, I would like to thank you for your interest and your cooperative spirit.

Very sincerely yours,

  
Georgette Abed, President  
Birzeit Women's Charitable Society
