WEST-BANK
via Israel

11.10.83

Dear Rita Giacaman,

it seems, that Hans Branscheidt already discussed with you, during his visit in december 82, our need of better material for a completer public information on West-Bank and the connected palestinian projects.

Unfortunately we had to prospond our own visit this year, so we seize the opportunity, that a friend, we all know well and who is quite familiar with the palestinian problem, intends to travel to the West-Bank between 7-20. of november 83. Marbod Roßmeißel is very much interested in making a serie of photos and interviews about palestinian women-projects and organisations. As he is ready to put this material at our disposal, we would be very greatful, if you could give him a help in getting contacts to the various women in charge.

In case, that you are travelling yourself or very busy at this period (7-20.11.83), would you kindly suggest another responsible, who will help him to get successfully along with his plans ?

Thanks in advance, with solid greetings,

Beatrice Göhler-Dokyi
